## Early Years Educator – Level 3 Apprenticeship

### Who is it for?

This Apprenticeship is ideal for those who have previously completed a level 2 Early Years Practitioner qualification, or may have previous experience working in early years, and would like to expand their knowledge and skills and/or progress to a senior or supervisory role. Early Years Educators play a key role in ensuring that young children learn and develop well and are kept healthy and safe.

### What will apprentices learn?

You will receive training to the Early Years Foundation Stage (EYFS) requirements for the learning, development and care of children from birth to 5 years old. Undertaking this apprenticeship will enhance your understanding of expected patterns of children's development from birth to 5 years, how children's learning and development can be affected by stage of development, and individual circumstances and transitions.

You will receive training on the legislation relating specifically to the early years sector, and will have the opportunity to research the theory of early years practice and engage in effective strategies to develop and extend children's learning and thinking, through purposeful play opportunities. You will also engage in continuing professional development and reflective practice to improve your own skills, practice, and subject knowledge.

### Content:

We have highly skilled and knowledgeable staff with significant experience of working in the industry who will be able to share their experiences and support you. We deliver the programme throughout the year providing you with the flexibility to start the apprenticeship when it meets your needs. All learning is either on a 1-2-1 basis or small group - this can be face to face or online.

We provide remote support, independent learning, action research, professional enquiry, work related case studies, ongoing mentoring, coaching, advice and guidance, specialist English/maths support (if needed), impartial information, advice, and guidance.

Full details of the standard can be found here:
